Date: 11/11/06

Please forward the attached to
Longbit Chai. I'm aware that
I need to pay \$60 for late filing,
however I was unable to find a
way to do this on the USPTO
web site. I will phone Monday for
help with this.

Alexandria, VA 22313-1450

Response C

Response to Office communication mailed 7/12/2006

As per applicant's phone conversation with examiner October 7th, We've attempted to greatly simplify this application. I have withdrawn all the claims except one that specifically pertains to our high-speed hashing algorithm.

Again, I apologize for failing to perform a proper prior art search prior to submitting the previous claims. I was the victim of bad advice from our (ex) Patent Agent. It has been an expensive and time-consuming mistake, and I will never do it again.

Withdrawal of all claims except Claim #31

We would like to withdraw all claims in the original application except claim 31. Most of the other claims are unpatentable in light of Jacobson, and other patents cited by the examiner. Claim 15 and several other claims relating to fast pattern matching may be unpatentable in light their substantial similarity to the Rabin-Karp algorithm (more on that below). This leaves us with Claim 31.
